EASTERN DATES TO AUGUST 21

EASTERN STATES

New York Republicans Nominate Gen Dix for Governor

[illegible] August 21.—At the [illegible] New York Republican State Convention W. A. Wheeler was elected [illegible] He spoke of [illegible] in support of Grant and [illegible] Democratic party.

[illegible]

The nomination of Dix was [illegible] Smith, who said [illegible] powerful [illegible] strength [illegible] Greeley will secure Republican voters and he must offset the [illegible] Democrat. This speech made a deep impression and produced a powerful sensation.

General John C Robinson was nominated for Lieutenant Governor.

Row between "Liberals" and Democrats

[illegible] August 21.—The Liberal Republican and Democratic Congressional Conventions met to day. After a vain attempt to agree upon a candidate the Democrats nominated F H Hurd (Dem) for Congress and H Freese (Liberal Republican) for Presidential Elector. Freese declined, and the Liberal Republicans repudiated Hurd and adjourned without making any nominations.

Fred Douglass Nominated for Elector in New York

Utica August 21.—Fred Douglass is nominated for one of the Presidential Electors for New York.

A Fight Off

COLLINS (West Virginia) August 21.—About two hundred roughs and sporting men, with Mace and O'Baldwin arrived this afternoon at Collins Valley, near the State line between Pennsylvania and Virginia. The ring was pitched at 6 P. M. Mace entered first and won the toss for corners. After an hour's deliberation the men could not agree upon a referee and that ends the matter for the present. Amid much dissatisfaction the pugilists proceeded to [illegible] to meet tomorrow.

A Horrible Affair

MARYSVILLE (Mo.) August 21.—An atrocious series of murders were brought to light yesterday by the arrest of a man named Osborne at Clarmont. It appears that Osborne, who was traveling with a covered wagon, stopped for a meal [illegible] some men [illegible] the wagon by a stench proceeding from it. [illegible] they found five bodies [illegible] Osborne confessed at the end of a rope that the murders were committed by one Williams near Halton, Kansas. Osborne has been employed to put the bodies out of the way. He confessed to having traveled on with the terrible load for five days. From a memorandum found on one of the bodies it is inferred that they were a party of emigrants consisting of Mr Ohme, wife and two children, and a young man named Dickson, supposed to be a brother of Mrs Ohme. They had traveled from Minnesota to Southern Kansas, and were probably on the way to Nebraska. The last memorandum by the young man was near Halton. The Coroner held an inquest yesterday, and the bodies were buried at Claremont.

Washington News.

WASHINGTON August 21.—The Treasury Department will on the 2d inst commence the payment of interest without rebate on the ten forty bonds due September 1st.

An order was issued from the Internal Revenue office to day directing gaugers to gauge all packages used in the sale of fermented liquors. If they find packages too large they must either be branded a size larger or turned over to the brewer to be cut down.

CANADA

Canadian Filibusters

MONTREAL August 21.—It has come to the knowledge of the Government that certain persons in the Dominion are organizing a warlike party to aid Cuba. A proclamation is issued by the Governor General warning persons of the consequences of infringing on international obligations of neutrality.

BY ATLANTIC CABLE.

London Dispatches

LONDON August 21.—Journals heartily approve the verdict of the Court of Impeachment in the case of Barnard.

The race for the Albert cup was sailed yesterday. Vessels belonging to the Royal Yacht Club ran. The [illegible] was first and the *Iona* second.

The Berlin special says the Emperors of Germany and Austria, accompanied by their Ministers, will meet at Ischl August 25th and remain there four days.

From Geneva

GENEVA August 21.—A summary of the arguments of Waite, Evarts and Cushing before the Arbitrators is published in the Swiss *Times*. Counsel impugn the conduct of the British Government in relation to the Confederate cruisers not only for allowing them to escape but because they had not subsequently seized them, and they were permitted to sail from British Colonial ports. The Board met to day and adjourned until Friday. No information has been yet given to the public.

CALIFORNIA

From San Francisco

SAN FRANCISCO August 22.—Mike Hurley alias Moses Brucker, one of the most determined criminals on the coast, was captured last night on Barbary Coast. He was one of the leaders in the Carson prison break and had the audacity to pass through Virginia last week. He was twice sent to San Quentin from this city.

A meeting in the interest of the Texas Pacific Railroad has been called at Union Hall this evening. It will be addressed by C. I. Scott and Jno W. Forney.

The Board of Supervisors to night came to no final decision on the Montgomery street straightening claims.

Weather quite warm and fogs prevail to such an extent that no vessels are finding their way into port.

Numbers [illegible] have within a few days visited the new [illegible] Mountains a short distance from the [illegible] on the old San Jose road in San Mateo county which has been [illegible] worked by a dozen [illegible] for the last two years. They have [illegible] feet and the mine is [illegible] in every respect. They have not a [illegible] working [illegible] from level to level by [illegible] carrying out the ore on their backs using [illegible] cut in the rocks instead of ladders. The re[illegible] appears to be a curious conglomeration of iron, [illegible] clay and copper pyrites with some quartz mixed with it carrying gold and silver in quantities not known to any but the parties who have been working it. An old Chilano woman who lives near the mine says the Mexicans have [illegible] part [illegible] in San Francisco for $100 and $150 per ton. How they kept the matter a secret so long is a mystery.

[illegible] stocks [illegible] very weak on the streets this morning and many operators fear that the bottom [illegible] reached.

A terrible tragedy occurred at [illegible] the residence of R D [illegible] the owner [illegible] and driver of an express wagon. [illegible] and his wife had been separated for [illegible] but recently came together again and agreed to resume their relations as man and wife. This morning he attacked her and [illegible] he stabbed her several times in different parts of the body and then cut his own throat, severing the windpipe, then rushed out into the street with the blood pouring from his wounds [illegible] he fell exhausted. He was taken to the hospital and is apparently in a hopeless condition. The wounds of the woman are severe but it is thought she will recover. Jealousy is at the bottom of the affair.

The panic in Comstock stocks continues and there were heavy sales this morning mainly at declining figures. Imperial held its own, opening at [illegible] and advancing [illegible] at which it closed, but nearly all the others went much lower than last night. Savage touched the lowest point yet reached and closed weak at [illegible]. A bluer day has not been seen on California street for years.

INTERIOR CALIFORNIA DISPATCHES

[illegible] August 22.—Last night at 1 P. M. the livery stable of M. Freidman was discovered to be on fire. The stable with six horses was destroyed and [illegible] with [illegible] Wrestler [illegible] T H [illegible] considerable damage [illegible] the [illegible] printing [illegible] Loss [illegible] partly insured.

The [illegible] have taken down the names of Grant and Wilson and will probably wait the result of the [illegible] Convention before [illegible] there[illegible].

WASHINGTON TERRITORY

[illegible] Aug 22.—[illegible] at large [illegible]

The bark [illegible] lumber at the Seattle mill for San Francisco.

Puget Sound papers mention the shooting of a watchman named Zegmar at Olympia by a man named Andrews whom he was trying to arrest. The bullet entered about an inch above the left eye passing along the bone and coming out about an inch and a half from where it entered. The wound is not considered fatal. Andrews was arrested.

A new schooner named *[illegible]* has been launched at Freeport. She is intended for the Mendocino lumber trade.

The *[illegible]* has cleared from the Freeport mills with a cargo of railroad ties for New Zealand.

A Railroad for Eastern Oregon

Congressman Slater has written the following letter regarding this important enterprise:

LA GRANDE Aug 12 1872

Ed. Oregonian, Sir: Through the columns of your paper I desire to say a few words to the people of Eastern Oregon upon the subject of Railroad communication. I am fully aware of the anxiety of the people upon this subject and know that they are earnestly hoping that at an early day provisions will be made for the construction of a railroad from Portland to Salt Lake. And right here I desire to say that I have no sort of doubt but that this road will be built and is only a question of time but this is altogether too indefinite. The great questions are—When? How soon? These questions are easily asked but most difficult to answer.

The first step toward meeting the wants and necessities of our people is the construction of a narrow gauge road from the Columbia river to Baker City. This is the first link to be built in the Portland Dalles and Salt Lake road. How shall it or can it be built? Congress has given no right of way but at its last session refused to give other aid. It is hoped that future action may be more favorable and some assistance yet be secured but this at best is uncertain and may entirely fail us and in the end we may be forced to try other means. This is too plainly the present outlook of Eastern Oregon as regards the construction of railroads. It is then the part of wisdom to look squarely at these matters and not rest supinely upon hopes that may prove illusory.

The distance by the most feasible route from the Columbia river to Baker City cannot exceed 140 miles. The cost of construction of a narrow gauged road upon this route would not exceed $10,000 per mile or say one and a half million dollars. Now the line of this road would pierce settlements aggregating at the present time 12,000 and would secure the trade and support of 15,000 more. The results can best be suggested by reference to the well established fact that the creative power of railroads is such that their construction through agricultural districts adds to property values five times the cost of their construction. The assessments of the three counties of Umatilla, Union and Baker will aggregate at present not more than three millions. Apply the rule stated to the construction of a road from the Columbia river to Baker City at a cost of one and a half million dollars, and there will be added to the assessed values in those counties the sum of seven and one half millions. This increase will not of course come all at once, but in the course of a few years after the completion of the road. There is then a very great inducement to make extraordinary effort to secure its construction at an early day.

That the road will pay from its completion I have no doubt. It might not if there were no increase over present resources but it will require at least three years to construct it, and in that time without reference to any acceleration by reason of its construction, we may reasonably calculate upon 30 per cent increase in our population and with the impetus the construction of the road would give we will double our population in less than five years. That is to say, by the time the road can be constructed and in operation if we were now ready to enter upon the enterprise there would be tributary to its support a population scarcely less than fifty thousand people. My own convictions are that it would be greater rather than less, for the reason that there is a very large district of country adjacent to the line of this road which is still subject to settlement. The practicability of the route is not questioned, and that the resources of the country will sustain a railroad cannot in view of these facts be questioned. And this brings us to the consideration of the means for its construction.

In the older States whenever the resources of a section will insure a paying return equal to running expenses and seven per cent interest upon the cost of construction there is no difficulty in securing capital. It is generally ready to seize every such opportunity without delay. But here the capital in the main must come from abroad. In most of the Western States where roads are being built without the aid of Government subsidies the mode of securing the necessary funds is generally by voting aid by towns and counties along the line. In this way about ten per cent is usually raised or loaned to the company or the interest on the bonds of the company are guaranteed for a given period. But here under the form of our State Constitution we are denied resort to these instrumentalities and are thrown upon individual enterprise and liberality for any and all local aid. We cannot expect capitalists to make investments here unless some evidence of local confidence and interest is manifested. Besides some time must necessarily elapse between the commencement and completion of the road during the most of which time and possibly a long period the capital invested will be idle, not even paying interest. And again men who engage in building railroads are like men in other business—they do it for the money they make or expect to make. And we may as well make up our minds that whoever builds this much needed road of ours will make just as much out of it as is possible to be made—that is to say, will make just as much out of the people as they can. This is the history of railroads wherever they have been built and our experience will not be different from the experience of other people.

The question then is, are we prepared to [illegible] to the work and from our own pockets subsidize this road? Or will we wait [illegible] that capitalists either at [illegible] will build the road without local aid or until Congress shall become more liberal and [illegible] Government aid in some form?

It has been ascertained that Eastern capital can be procured to furnish the iron and rolling stock [illegible] can local aid be had sufficient to grade and lay down the ties. If this can be done we can proceed without much delay in the construction of our road.

I am not able to estimate the cost of grading and putting down the ties but after very careful consideration I have become convinced that it will be necessary to secure aid along the line of the road equal to $10,000 and that with this amount pledged and secured work might be commenced in less than twelve months. Can this amount be secured? It is certainly large for the three counties directly in interest of the road. That the contribution of this sum would in the end prove profitable by the enhancement of property values I think will not be questioned in view of the facts already stated, provided the road is constructed. It is certain however that so large an amount cannot be secured without great effort on the part of the people nor can it be secured upon any other condition than the certainty of the road being built. But few would be willing to contribute in any other way than upon the condition that their contribution was payable upon completion of the road. If this amount was contributed in land or money secured by mortgage upon lands, the contributions of each county to be paid when the road should be built to a given point in such county, so that these subsidies could be regarded as contingent funds that might be realized as the road progressed, the end would be gained and the company have a local basis upon which to negotiate its bonds for funds to begin the work. To make the proposition as plain as possible, suppose that three men, A, B and C living in the several counties named have each 160 acres of land, and each proposes to contribute $100 towards the construction of the road, to be paid when the road shall be constructed through the respective counties, and to make the company know that that sum will be paid, gives a mortgage upon forty or eighty acres of their land. This lien becomes fixed when the road is built, and the money is secured under the mortgage.

These suggestions are made for the purpose of drawing attention to and discussion of, the ways and means to secure the building of this section of road. I think every intelligent person will at once admit that if this be done it will not be long until it would reach on to Boise City and from thence to Salt Lake and finally to Portland. Let the people talk over this matter, and make up their minds as to the course they will pursue. Whether they will rest upon the uncertainties of Congressional action, or put their own shoulders to the wheel and make a certainty of an early completion of the road.

JAS H SLATER

OREGON STATE TEACHERS' INSTITUTE

The Oregon State Teachers Institute met at the Baptist Church in Eugene City, on Monday, August 3 1872 at 10 o'clock A M.

President, J Quinn Thornton called the Institute to order. The Secretary being absent John C Arnold was elected Secretary pro tem.

There being no further business ready for consideration the Institute adjourned to meet at 7 30 P M.

EVENING SESSION

The Institute met pursuant to adjournment.

The committee, appointed at the last annual meeting, charged with the duty of framing the project of a Common School Law, reported by its Chairman, J Quinn Thornton.

The report was accepted and the committee discharged, and the project of law recommended by said committee, for consideration and adoption by this Institute, was referred to a special committee consisting of Rev C H Wallace, John C Arnold and Rev. T M Martin with instruction to report at 10 A. M. to-morrow.

The President having given an invitation for remarks by any person present, who might feel interested in promoting the cause of public instruction, Rev T L Eliot, of Portland, County Superintendent of Common Schools, Rev C. H Wallace, Rev E P. Henderson, Rev T M Martin, Teacher at Eugene, Hon J H D Henderson, and others, responded by making appropriate remarks upon various subjects engaging the attention of the Institute.

Adjourned to meet at 10 A. M to morrow.

MORNING SESSION

Wednesday, August 14.—Institute met pursuant to adjournment.

The special committee, appointed on yesterday, reported that fully impressed with a sense of the magnitude and great importance of the subject of the project of a Law providing for a general system of Public Instruction in Oregon, they had carefully considered, in all its details, the bill referred to them, from the committee appointed by the State Teachers Institute of last year, and they recommend that it be adopted by this body and further that Hon J Q Thornton be charged with the duty of bringing it to the notice of the next Legislative Assembly for enactment.

Mr Eliot here moved a suspension of the rules, which motion being adopted, he offered the following resolutions:

Resolved, That in the judgment of the Oregon State Teachers Institute, in view of the present state of public opinion, it is not expedient to ask for a new school law, which will embody all the features of a system of public instruction, but that the Legislature of the State be asked for a few prominent changes in the present law, viz:

1. That the election of a State Superintendent of Public Instruction be provided for by law, defining the duties of the same, and that one be chosen to fill the office until the next general election.

2. That a State Board of Education be constituted to co operate with the Superintendent in adopting a uniform system of examination of teachers.

3. That the attendance, as far as possible, of children of proper age, at some school, for at least three months in the year be required by law.

4. That the State School Tax be not less than four mills on the dollar.

A very spirited discussion of these resolutions followed in which Messrs Atkinson, Campbell, Eliot, Henderson and the President participated. Pending this discussion the project of school law, as reported, was ordered to be read by the Secretary, and its merits pointed out. These were admitted by those supporting Mr Eliot's resolutions but it was asserted that the Oregon Legislative Assembly had hitherto manifested a reluctance to pass a law embracing the whole subject of public instruction, as a complete system. To this it was replied that while such might be true of the past, there were many reasons for believing that the Legislative Assembly, to meet in the coming Autumn, would readily avail itself of the project of the law under consideration, since upon it had been bestowed more earnest labor by practical Oregon educators than had probably been given to any existing statute in this State.

The Institute then adjourned to meet at one P. M.

AFTERNOON SESSION

The Institute met pursuant to adjournment.

The vote on Mr Eliot's resolutions being now taken they were adopted.

On motion of Dr Atkinson it was resolved that the project of law as reported by the committee appointed last year and also the amended project of law, reported by the special committee appointed on yesterday, accompany Mr Eliot's resolutions, and with them be submitted together to some appropriate committee of the next Legislative Assembly as containing the general features of a law which the Oregon State Teachers Institute has had under consideration and which is desirable.

Dr Atkinson of the Committee on School Lands and School Funds, appointed some weeks ago with instructions to report at this session of the Institute stated that although there had been no meeting of said Committee called by its Chairman, Mr Hare, he had, nevertheless given some thought and labor to the matter and begged to submit the conclusions to which the investigations had led him in the form of the following resolutions:

Resolved 1. That the present mode of loaning the public school fund, by the agency of the several County Treasurers, for various reasons commends itself to our judgment.

2. That the State Board who by the Constitution are the custodians of the fund, should be authorized to insist upon monthly reports from said Treasurers and further, that they be authorized to employ sufficient help of Clerks and Accountants to conduct the greatly increasing correspondence and to keep the exact state of the fund constantly before them, and thus enable them to make the annual distribution of the accrued interest within the time required by law.

3. That while we approve the present mode of appraisal and sale of the school lands we would recommend that the County Superintendents be required to examine school land on sale at the expense of the applicant.

4. That in our judgment any money illegally loaned, or withdrawn from the school fund should be restored by the State.

The Institute adjourned to meet at 7½ P M.

EVENING SESSION

The Institute met pursuant to adjournment.

The exercises of the evening were opened with prayer by Rev Dr. Atkinson.

The President then introduced Rev. T. L. Eliot to the audience, who proceeded to deliver an address upon the subject of "What the Common School System of America has Accomplished." After Mr Eliot's discourse Rev Dr Atkinson, Rev Mr. Campbell and others, addressed the Institute.

After the address, Dr. Atkinson offered the following resolutions which were adopted.

WHEREAS, A need of authority exist to protect vagrant children,

Resolved, That such authority ought to be given to any city or county.

2. That we hereby recommend the Legislature to provide a Vagrant Children's Home or Reform School of the State.

Prof Campbell then offered the following resolution which was adopted:

Resolved That this Institute looks with favor upon the efforts of Prof U S Smith, of Salem, to establish a school for the deaf, and heartily recommend an increase of appropriation to sustain the same.

On motion, made by Rev Mr Eliot, the committee having in charge the project of a law upon the subject of common schools was discharged and tendered the thanks of the institute for its earnest labors.

On motion of Dr Atkinson the thanks of the institute were tendered to the people of Eugene City for their hospitable entertainment of the members in attendance.

On motion it was resolved that the officers of this institute hold over to the next year, and that they hereafter fix upon the time and place of the next annual meeting.

On motion the institute adjourned sine die.

J QUINN THORNTON, President.

JOHN C ARNOLD, Secretary, pro tem

PLANTATION BITTERS!

S. T.—1860—X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

MEXICAN MUSTANG LINIMENT;

FOR MAN AND BEAST.

Probably few articles have ever had so extensive sale, while none have been more universally beneficial than the MEXICAN MUSTANG LINIMENT. Children, Adults, Horses and Domestic Animals are always liable to accident and it is safe to say that no family can pass a single season without some kind of an emollient being necessary. It becomes a matter of importance then to secure the best.

Over three hundred livery stables in the city of New York alone are using the MEXICAN MUSTANG LINIMENT, in all of which it gives unusual satisfaction.

CAUTION.—The genuine is wrapped in a fine *Steel Plate* engraving with "*G W Westbrook Chemist*" and *Trade Mark MEXICAN MUSTANG LINIMENT*, engraved across the face of each wrapper. The whole bears the proprietor's private United States Revenue Stamp and not a common stamp as used by druggists.

The Daily Oregonian.

FRIDAY MORNING AUGUST 23 1872

A Railroad Letter

Here we print an important letter from our member of Congress Hon J H Slater in regard to a railroad for Eastern Oregon. The suggestion which he presents is eminently entitled to consideration. Although the letter is written chiefly to the people of the eastern counties of the State, the subject is one which [illegible] of all sections of Oregon and especially to citizens of Portland.

If it be true that assurances have been given that in case the road bed shall be made ready for the iron by local aid the iron and rolling stock will be furnished, the enterprise does not seem to be impracticable, but entirely within the compass of reasonable effort. The three counties, Umatilla, Union and Baker may not be able to accomplish so much, but the enterprise is one of far more than local importance, and if rightly organized should be able to secure aid from other sources. We know not whether the State has any available resources which could be devoted to this work, but if it has any they could not be better applied. Portland, as a commercial center, should take an interest in the enterprise and help it along. The trade that would grow up in consequence of the construction of this road would be an immense augmentation of the business of this city. It would naturally flow to this place, and its effect would be a great and permanent advantage.

It is by seizing opportunities as they are presented, and developing enterprises that enlarge the area and volume of trade, that cities grow into commercial importance. It is the great secret of Chicago's growth as well as that of many another city. Portland should not be behindhand in efforts like this, and we commend to the consideration of our citizens the points made in Mr Slater's letter.

Trenchant Writing

The *Nation* apprehends trouble for Greeley in case he is elected. It says:

> He will be occupied, not with public questions, but with the distribution of offices among the largest band of claimants by which any President has ever been assailed. He will have to satisfy the prominent Southerners, prominent Democrats, and prominent Liberal Republicans, or, in other words, he will have more "prominent supporters" to satisfy than any of his predecessors. How he will succeed may be inferred from the fact that while he will have no more offices to bestow than any one who has gone before him, he has probably less tact, a worse temper, less firmness, and less skill in dealing with men.

An article in the New York *Independent* examines the evidences of Democratic conversion, and does not find them satisfactory. The writer thinks it absurd to claim that the whole nature of the Democratic party has been suddenly changed simply by the adoption of a set of resolutions. Political platforms do not accomplish such miraculous conversions as this. The nature of the Greeley party is thus considered:

> Is it a new party, or the old one bearing a new flag and huzzaing for a new leader? Is this the party which made James Buchanan President, which sold itself to the slaveholding power, which made itself infamous to make Kansas a slave State, and which was cursed by the rebels for not redeeming the promises given them by its leaders? Is this the party which four years ago was shouting "for Seymour and Blair," and for undoing the whole work of reconstruction? We can see that it is losing some who refuse to go with it in its "new departure," and some who are disgusted with its candidates, and that it has gained Senator Fenton and others who were formerly included in the Republican organization, but we remember that every party is liable to such changes. Surely, if there is any such thing as the historical identity of a party, notwithstanding its losses and its reinforcements, the party which is now putting forth its strength for the election of Mr Greeley, and which is sure of being dominant if he shall be elected, is identical with the party which was victorious in the election of Buchanan.

The *Era*, (East Portland) which refused to accept Greeley for a fortnight after he was nominated, said that victory with Greeley would be an abandonment of all the Democratic party has contended for, declared that "to support Greeley would not be to support a Democrat or Democratic principles, and asserted that 'even in case of his election the grand old party of Jefferson would sink into oblivion,'"—the *Era* which said all these things now attacks with cudgels those Democrats who can't change their position and principles with its ready facility and who purpose to support the Louisville nominations. In its issue of this week it devotes four or five articles to assaults on those who still hold the position which it told them to take last month. Political eras succeed each other very rapidly in East Portland.

Old Independence Hall at Philadelphia is to be restored as nearly as possible to its general appearance in June and July 1776. The old furniture and portraits so far as the same can be procured, are to be replaced in their original historical positions. Some portraits are wanted to complete the list and persons who have them are requested to furnish them in time for fitting up the Hall for the centennial celebration in 1876. The City Council of Philadelphia have taken this work in hand. The original draft of the Declaration is preserved at Philadelphia. The President's chair and the table on which the Declaration was signed are still preserved.

Horace Greeley has a thousand times said that the Republican party saved the Union, blotted out the accursed institution of slavery, preserved the national credit, prevented repudiation of the public debt, and has always been the promoter of wise and beneficent measures, and he has as often asserted that the Democratic party uniformly opposed these measures and struggled to bring disaster and utter ruin upon the nation. He and his supporters now ask the people to repudiate the party of progress and reform in favor of the party that has been criminally wrong for a quarter of a century. They will not do it.

Elections go back on the Democracy wonderfully this year. We now have it that Clagett (Republican) is elected delegate to Congress from Montana, where a Democratic triumph was claimed. Our Democratic brethren have been making themselves very ridiculous of late by vociferating so loudly before they were out of the wood. Their simplicity is equal to that of the [illegible] lass who counted up her gains in dozens of imaginary chickens, which were to buy her the new green gown that was to break the hearts of all the young fellows.

Authorities in different States have very unnecessarily interfered to prevent these two brutes, Mace and O'Baldwin from bruising each other. Why not let them have it out and let readers of newspapers have an end of the affair?

A young man aged 17 living at Jas Hutchinson's, about three miles from Oakland was found dead by his brother at 11 o'clock one night recently. The elder brother had been to Oakland and left his younger brother alone, preparing his gun for a hunt. He was found on the steps near the door, with his head nearly blown to pieces.

THE EUGENE CITY MURDER

We have from Eugene the following statements relative to the murder perpetrated at that place on Thursday evening.

The killing of George T Smith at that place by L D Miller was a most cowardly murder. Miller said Smith had written letters to his (Miller's) wife and had made her a present of a gold watch and chain. He became jealous and swore that he and Smith could not live in the same place. On Thursday evening as Smith was walking down street with a friend, Miller started suddenly out of a doorway, came up behind Smith, placed a pistol nearly against his body about the middle of his back and fired. Instantly on firing Miller retreated to the door from which he had emerged and disappeared. Smith seemed not to know that he was shot and walked on down the street and into a hotel. A few minutes afterwards he began to grow faint, exclaimed that he was shot and fell on the floor, dying in a few minutes. Miller went to his own house where he was at once arrested.

The true story of the gold watch seems to be about this: Smith had a lady's watch and chain which he offered to dispose of by raffle. He retained several chances for himself. When the throwing was nearly done he was behind, but had a single throw left. He turned to Miller who was present, told him that he was not having much luck, and asked him to throw for him. Miller acquiesced and this throw luckily won the watch. Smith then told Miller that since his throw had won the watch he could take it and give it to his wife. Miller did so. This is the only ground Miller had for asserting that there was any improper intimacy between his wife and Smith.

Much excitement was produced in the town by the murder, and had not Miller been safe in jail before the fact became generally known, he would probably have been hanged on the spot.

OREGON

Workmen are fitting up the Chemeketa Hotel at Salem.

A valuable horse belonging to J B Underwood died at Eugene City on Wednesday.

There was a case of small pox at St Helens last week and much excitement was caused by it. Everybody vaccinated.

In Columbia county the mills are all running on full time with plenty of orders. The logging business is flourishing.

At Drain Station, thirty five miles south of Eugene, and eighteen miles north of Oakland, two stores have been established. Mr J W Krewson of Krewson & Drain, merchants there, is Postmaster. A grist mill, heretofore situated near Scottsburg, will be removed shortly to this station. A public building for a school, public meetings or other purposes, is being erected, and other improvements are constantly being made.

THE TERRITORIES

Oneida county, Idaho, in which the famed Soda Springs are situated, has a population of four thousand seven hundred and seventy five.

During the last four months merchants of Lewiston have paid fifty two thousand dollars gold for freight on goods carried up the Columbia river.

An insane man named Lazarus Zephyr made his escape from the Asylum at Steilacoom a few days ago. There are now 33 inmates in the Asylum.

Poles have been put up from Tacoma to Steilacoom by a private company with the intention of running a wire between the two places, and having telegraphic communication.

In the Weiser River Valley, Idaho, there are bands of Indians numbering one thousand to one thousand five hundred, all armed with rifles and revolvers. They belong on different reservations and are a terror to the whites.

A fellow named Henry Andrews shot a watchman, John Seigman, at Olympia a few nights ago. Andrews was on a noisy drunk, and when the watchman went to arrest him he fired with a derringer, the ball striking the watchman immediately above the left eye and coming out on the side about an inch from where it entered. The wound was not fatal.

We have some further information relating to the killing of George Duke by Samuel C Kelly, on Crab creek, beyond Walla Walla. This statement gives a new version of the affair. Duke, it appears, provoked the difficulty and had frequently threatened Kelly's life. It is therefore believed that Kelly killed him entirely in self defense. The men had removed from Oregon about a year ago. They were brothers in law.

Vance's Illustration

While Greeley's organ is praising Vance, Vance doesn't talk in any very flattering way about Greeley. A correspondent of the Baltimore *American* in North Carolina, writes:

> In a speech made here some days ago Vance said: "It is hard for us who have been extreme war men, who have lost property and almost all we hold dear for principle, to now sacrifice principle and accept Horace Greeley for our candidate, but we must do it." [Some one shouted out, "We can't do it."] Vance replied: "We must. See here gentlemen, sometimes we're dry and we can't get good liquor. We must have a drink. Don't you take poor whisky if you can't get anything else? Of course we take the poor. We take and mix it a little whisky, a little water, plenty of sugar, stir it all up, drink it, and damn it. So in this, we can't do no better. We will take a little Greeley and mix in some of the issues we all love, vote the ticket, but curse Greeley." This given in Vance's way made a laugh. After it was over some old Bourbon sang out: "It won't do, Governor, it won't do. I've been dry a good while, and if I can't take it straight I'll stay dry." This fetched the house, and soon after the meeting broke up.

FRIDAY MORNING AUGUST 18

CITY.

ADDRESS ...—Recently we published a petition which is being circulated ... asking the Legislature to make an appropriation ... and maintenance of a Board of Immigration in the State. It was ... that a number of these petitions would be sent to different persons throughout the State for circulation and signatures. But in many instances Mr Ferry who sent the blank is at a loss ... now to whom he can send a petition with the assurance that the persons so receiving them will take sufficient interest in the matter ... to ... the same. To obviate as far as possible ... difficulty we are requested to state that any person or persons who feel an interest in so important an enterprise ... the State have ... to forward the names and address to Mr C P Ferry of this city and the return mail will bring a petition. As the time approaching when the Legislature is to convene, prompt and efficient action is required. The object is to place the petitions in the hands of those persons who will take a ... very interest in their circulation.

ACCIDENT AT MONTICELLO.—Mr Isaac ...smith, a well known resident of Monticello, met with a serious accident at his sawmill on last Tuesday. While the machinery was in motion and a log about to be drawn up, he stepped into a loop formed by the slack of the rope in the mill and in an instant his left leg was caught just above the ankle and before the machinery could be stopped was crushed almost to a jelly. He was conveyed to his home and surgical assistance telegraphed for to Portland. On Tuesday night a ... the steamer *Mary Bell* started with Dr Kinney ... this city, for Monticello. He returned last night, and we are informed that he found it necessary to amputate the limb between the knee and ankle. The operation was performed yesterday afternoon, and the patient will no doubt speedily recover.

"THAT ORE."—The reporter of the down street paper still tenaciously clings to his original blunder about the discovery of that iron ore near Oswego. We submit the following facts for his reflection. Examine the issue of the OREGONIAN of June 14th and an item of nearly three sticks in length will be found concerning the discovery of "that ore" along the Oswego canal. A specimen of "that ore" was laid on our table by Capt Kellogg on the 1?th of June, a few days subsequent to the discovery. Will that reporter answer this conundrum? If work on the canal was first commenced on the 25th of June as he alleges, how could an account be written of the discovery of the ore and a specimen produced eleven days before that date? We pass.

BOOKS TO CLOSE.—Persons who have so far neglected to make out and hand to Mr Dolan a statement of their assessable property should do so without fail. To-day and to-morrow will suffice to close that officer's books. He can be found at his office until to-morrow evening, where he will remain to receive such statements. The Board of Equalization will meet on next Monday to examine the assessment rolls and accept the same. Parties will therefore perceive there is no time to lose if they desire to avoid trouble and expense.

STATE FAIR POSTER.—We have received a very neatly executed ... poster printed by Mr E M Waite, for the Secretary of the State Agricultural Society. This poster is very handsomely printed in five distinct colors and evincing fine taste in the manner of its general effect and arrangement. The next State Fair will commence at Salem on Monday, September 30th. Premiums are offered by the Managers amounting to over $10,000 and no effort will be spared to make the Fair of 1872 superior to any heretofore held.

THROUGH FROM SAN FRANCISCO.—By means of the Oregon and California Railroad now completed from Portland to Oakland 181 miles and the Oregon and California Stage Company which connects Oakland, Oregon, with Red Bluffs, California, 322 miles, and the California Pacific Railroad, completed from San Francisco to Red Bluffs 273 miles, the whole distance between Portland and San Francisco, 776 miles, is now run in the incredibly short time of 7? hours or 3 days and 7 hours.

HYDROGRAPHIC SURVEYS.—Wednesday, Mr Blair was engaged in making a hydrographic survey of the channel of the river to ascertain the depth, etc, opposite the foot of Pine street. The greatest depth he found was 73 feet. After having ascertained the maximum depth at various streets, Engineer Blair will make various borings to determine the character of the soil through which it will be necessary to drive the piles that are to secure and hold the stone piers in their places.

BATTED OUT.—A party of some half a dozen Nimrods started last week from East Portland for a hunt in the mountains. A few days ago one of the hunters returned to the pale of civilization and stated that from the day the party had reached the hunting grounds it had never ceased for one hour to rain night and day, and that the party were greatly disgusted with the prospects and contemplated an early return.

THANKS.—Rev Mr Izer desires thus publicly to return the thanks of himself and his wife for the friendly gathering at the church on Wednesday evening last and to all who contributed to the pleasantness of the occasion. The reverend gentleman and lady will long cherish in memory the many greetings and well wishes they received from their friends on the occasion in question.

WHEAT.—Mr Wm Ford of Nehalem valley has sent to us a bunch of fine white wheat—fall sown—as samples of a piece of the same kind of grain on his farm. The length of the stalk is about four and a half feet, and of the heads from 3½ to 6 inches. The kernels are large, plump and well developed. Such wheat ought to yield handsome returns to the acre.

BOAT RACE.—A lively little trial of speed took place yesterday morning between the steamers *Fannie Troup* and *Vancouver* as both were on the way to this city. The latter boat came out a short distance ahead but everything considered, the race was pretty evenly contested, and neither craft can exult much over the other as to superiority of speed.

COUNTY ORDERS.—The number of County orders issued from the County Clerk's office for the last month, including of course the expenses of the last term of the Circuit Court and improvements made to the Court House and the renovation of many of the offices were just 1?0. The total sum of these warrants will probably exceed $5,000.

CLOSE CALL.—Yesterday evening, when the team ran away on Front street a couple of gentlemen sitting in front of the St Charles Hotel only noticed the approach of the team when within about twenty steps of them and had barely time to get into the hotel as the team dashed furiously by.

NEW CUSTOM HOUSE.—Work on the new Custom House and Postoffice is progressing with marked results. The second story is nearly completed, and begins to show what an imposing appearance the building will present when the last stroke of the mallet has been given.

NARROW ESCAPE.—Last evening about six o'clock, a small boy, name unknown, fell from the wharf at the foot of Main street but was rescued in an exhausted condition by a bystander.

ACCIDENT.—We learn that Mrs General Canby slipped and fell on last Tuesday resulting in a severe sprain of her ankle, which has confined her to her bed nearly ever since the accident.

PUBLIC SCHOOLS.—We are authorized by the Board of Directors of School District No 1 to state that the public schools of the city will open on Monday, September 2d 1872.

FROM THE CHASE.—A party of two hunters returned the other day from an excursion ... up to the front of hood. The fruits of the chase was six fine deer and one bear.

CIRCUS—PRICES REDUCED.—Ladies admitted for 50 cents and children for 25 cents at the matinee at the circus this afternoon.

COMING HOME.—Mr G H Perkins formerly of the American Exchange is on his way home overland.

The telegraph line broke yesterday afternoon south of Canyonville, and we are therefore without our usual Last Night's Dispatches.

THE MAIL ROBBERY

TRIAL OF TOMPKINS, TRAVELLER ... AND WHITE IN THE UNITED STATES ... — EARLY ...

FOURTH DAY'S PROCEEDINGS

The Court convened at 10 o'clock A M. Parties appeared as heretofore. Mr Schutz called as a witness on the part of the prosecution testified: I reside at the Dalles City and am Sheriff of Wasco county and am also Deputy U S Marshal. I first heard of the robbery on the 1?th of July. We ... ... the Dalles ... the stage had been robbed at Antelope and was ... ... the place and make an examination ... I was informed that the robbery occurred on the 1?th of July. I made my arrangements to start as soon as I could and left the Dalles about 10 o'clock A M on Sunday, July ?th and arrived at Mr Ward's the same ... The next morning I visited the place where it had been informed that the robbery took place. I had taken with me as an assistant a young man named Joseph Cunningham. When we got to the place I got out of the buggy and examined the ground. About 20 or 30 yards from the place of the robbery I found the tracks of two men. We went on to Mr Moppin's and going down the hill to Moppin's house I saw a man coming. I met Cantrell and going down to Moppin's I found him shoeing horses and learned that he and others had been on the track. We prepared ourselves with "grub" for three or four days and Moppin, Cunningham, Cantrell, Attleberry and myself started out. We went to where the tracks they had found, crossed the wood road and there discovered three or four horses' tracks. We followed these tracks on a ridge toward Antelope Creek, going down hill till we came to a spring. At the steepest place we got off and were leading our horses when Moppin sung out "Here's a foot track." We examined it and found it had been made by a low, broad heeled shoe. Of the horses' tracks one was a very peculiar shape, what some would call a hoof bound and another was a large horse track as if made by an American horse. When we were at the spring Attleberry was stooping down and held up a pistol. [Here the witness was shown the pistol before named, and identified it as the same one Attleberry held up at the spring.] We followed the tracks to where they came to the Canyon City road about 1½ miles above Moppin's house. [The witness examines a map of the vicinity where the robbery is alleged to have occurred.] They never kept as direct a route as is laid out on this map but the main courses and places are marked correct. After this we went back to Moppin's and staid all night. The next morning we started on the road toward Canyon City, two going on one side of the road, two on the other and one in the middle. We traveled on the road about four miles, and left it striking off the right side toward a creek leading into Curran creek but made no new discovery. We went to the stage station and took dinner. We then went down to the old Curran creek house and there I detailed three men to go up the creek until they struck the old Muddy road. Cantrell and I took the road to Canyon City and went as far as Burnt ranch where we stayed all night and next day came back to Mr Moppin's. I appointed Mr Moppin as a special Deputy Sheriff, with instructions to arrest William Bramlette, if he was about leaving the country, and left for the Dalles. When I arrived at the Dalles, I gave the result of my investigation to Mr Waldron, the Postmaster, who made an affidavit against the four parties. I procured four warrants and started back next morning and got to Ward's on Friday night. There I found Tompkins a prisoner. I was accompanied by Mr Williams, also a Department U S Marshal, who served the warrant on Tompkins, and I started for Moppin's and there found Hanson White and Bramlette whom I arrested and took back to Ward's. Not having conveyances enough for all, I took Tompkins White and Hanson leaving Bramlette to come with a man next day. Two weeks after that, I left the Dalles for that country again. I went up to give the country a search. On Sunday, Moppin, Howe, Hunnson and I made a thorough search of the track. Where the track left the road on a large rock I wrote the words, "left the track," and the date and my name. We searched for the horse tracks we had seen on the first trip, and the small one was recognized by Mr Howe. We went to Frank Tompkins' house and there found Mr Williams Perry, Moppin, Mr Moreland and young Mr Hinkle. After a little while, we searched the house and found three pairs of boots, but, apparently, none of them were the ones I was looking for. (A pair of boots were shown the witness.) This, to the best of my knowledge and belief, is one of them. We found them up stairs in the middle of the floor. I sent for a pair of horses and they were brought down. One was a little iron gray ridgling. I made them lead him along the road, and his track resembled the one I followed the first day I was out. I then pulled off a shoe from his left fore foot, there were no shoes on the hind feet, and the shoe on the right fore foot was broken. I took the horse-shoe with me to Burnt ranch, where we stayed over night, and the next day, having engaged an Indian guide, I proceeded to the place where the robbery was committed, and going over the whole route with Garret Moppin, Perry, Moppin and myself and the Indian, and wherever the track was plain enough we fitted the shoe, and found it fitted as plain as could be made. We started next towards Curran and Muddy creeks and examined the country between Antelope Valley and Muddy. We were going on one of the routes to Tompkins' house searching two days on the dividing ridge between the headwaters of Trout creek and Antelope Valley we found 4 horse tracks—one was large, one small and two others. These tracks were going towards Antelope Valley that would be the nearest route anybody could take to Tompkins' house. We could not trace them further than the ½ of a mile. We found them on the dividing ridge. On one side the tracks led into a road that had been traveled and on the other side they had been obliterated by cattle. I know the habits of stock in relation to their range in that country. They generally keep near the water. The water is in the bottom—there is water within two miles of where we found these tracks.

Cross examined.—I started from the Dalles on July 14th, between five and six o'clock in the morning, with Cunningham. I know where the place of the robbery was because Edgar had told me. In the immediate vicinity the ground is very rocky. It was about twenty or thirty yards toward Canyon City from the place of the robbery to the left of the road that we found the tracks of the two men. They were tolerably plain and were apparently made by men of small feet and high heeled boots. We followed these tracks about half a mile from the top of the hill above the spring to the spring. We only saw the tracks of two persons. I would judge it to be three miles from the place of the robbery to the point. I examined the route but did not trace the tracks. About a mile from the place of the robbery I saw tracks of three persons but they were rather old, this being on the second trip. One was a broad low heeled shoe track and I ... the same track at the spring. I examined the pistol closely. I saw ... spring. On one side ... wet and dirt. I saw four horse tracks very close together near the spring. This examination was made ... ... back to the Dalles ... ... day night ... ... the Dalles that I had found ... ... as a ... ... I said ... might be taken from ... track ... ... any person of this part ... ... hoof bound track. I never ... ... Frank Tompkins had a mule. I was ... on Sunday in August that I was at Tompkins' house and saw the boots. I did not take the boots because I thought they were not the real I wanted. Attleberry had ... ... the boots to me but had not given me a description of them. The horse shoe was a ... what you might call a hoof bound horse. I took it off a small iron gray horse about the ordinary size of a cayuse horse—rather thin. This was nearly a month after the robbery. I may have said to Mr N B Sinnott, in front of the Umatilla House at the Dalles, that Moppin and Attleberry were the d—dst sharpest men that I ever saw. I may have had a conversation with Major Berry on the day I came into the Dalles with Tompkins, but it was limited. The tracks I found on the ridge between Antelope and Trout creek were made in a kind of light red soil. The tracks were very plain.

Direct examination resumed.—There was no comparison between the foot tracks we saw on the hill with the tracks we saw in the canyon. I did not take the boots partly because I relied on Moppin's and Williams' judgment. They had been up stairs a half an hour before me. I recognize these boots as one of the pairs I saw in Tompkins' loft by the patch in front ... I did ... not turn them up and look at the bottom.

Here the Court took a recess until 1 o'clock P M.

AFTERNOON SESSION

Mr Howe being called by the prosecution was sworn and said: I reside on John Day river in Grant county. I know defendant Bramlette. He came to my place about the last of June. I sold him on July 6th an iron gray horse with the head lighter than the rest of his body and a foot longer than the common run of ponies. He was shod before with very old shoes. I put them on him about the middle of May. He was not shod behind when I sold him. I was in Antelope valley on August 1?. On the ?th I made an examination of the tracks the gentlemen showed me about a mile and a half from Moppin's on the ridge on the left side of the road as you go to Canyon City. The tracks I took to be the tracks of the pony I sold Bramlette and I took them to be that horse's tracks. I saw the horse on Cherry Creek on the ?th of the month. Hinkle was riding him.

Cross examined.—The horse was going in ... ... the hind foot was not quite so long as ... the fore foot. I ... ... track ... ... asked me ... ... know whether I would find that ... track or ... ... He wasn't the kind of a horse I ... ... a man would ride in such an expedition.

... ... I ... ... he was the kind of a horse a man would ride on such an expedition ... he was ... ...

William Hinkle was called and testified: I reside on John Day river but have been stopping at Mr Tompkins' place lately. I was ... ... the defendants ... ... when Moppin was here and ... ... fore foot which I helped ... ... I saw Dr H ... ... Cherry Creek. I ... riding the horse ... ... Bramlette's horse. At the time ... the ... ... tolerably thin.

... ...

Garret Moppin testified: I reside in Antelope Valley with my father H Moppin. I was with Mr Schutz and the Indian and my brother looking for horses' tracks. We found four horse tracks on the hill ... ... where the robbery ... One was a large one ... and two ... ... One was a ... narrow track. We had a shoe with us and we compared it with the track and found it fit exactly. I had a conversation with Bramlette the next morning after his arrest. I asked him how he came to get into this scrape. He told me he didn't know that they were going to rob the stage until they got close to the place. He told me who did it, Tompkins, White, Hanson and himself. I asked him who had the shotgun. He said there was no shotgun in the crowd but Tompkins had a Henry rifle. He told me that he did not know where the mail sacks were, that after they got to the head of Curran Creek he and White went to the camp and Tompkins and Hanson took the mail sacks.

Cross examined.—We made the examination of the tracks about four or five days after the robbery. We had some trouble in finding the tracks. We found all the four tracks on the first day all within thirty yards of each other—going in one direction toward the place of the robbery. The room where Bramlette slept at my father's has a lock but I don't know whether it was locked that night or not. ... ... and they were shod. The big track had a shoe off. One was shod before and the other two all round. I think the right fore foot of the big horse was bare.

J A Mikey testified: I reside on Trout Creek, and have been in Antelope Valley since the robbery. I was there about the 12th of this month. [Witness was shown a pair of boots.] I saw those boots at Moppin's and with others went out and measured them with the tracks found between Moppin's wood road and where the horses were held about a mile and a half from the latter place. There were other tracks near. We measured them and found they fit exactly. I have no doubt the tracks were made by these boots.

Cross examined.—I say the horses were held because there was nothing near to hitch them to. It is not a usual thing in that country for a group of three or four horses to stand together without being held or hitched. I never saw them do it.

F M ...ham said he lived near John Day's 20 miles from Bridge Creek Postoffice and 50 or 55 miles from the scene of the robbery. I was in Antelope Valley about the middle of July. [Witness was shown the pair of shoes before named and gave substantially the same account of the comparison of the shoes with the tracks as given by witness Durbin.]

The cross examination of this witness showed that he had observed the impression in the tracks made by the round headed nails or brads in the bottom of the shoe which other witnesses had testified that Hanson had said he had put in after the robbery.

William Cantrell was called and sworn and testified concerning the search for tracks substantially the same as Schutz. Concerning the arrest of Tompkins, his testimony was similar to that of the witness H Moppin. He said: I had a conversation with Bramlette. I asked him where they came into the road, and he told me just about the place.

Cross examined.—Couldn't say whether the horse making the small track was shod all around or not.

Samuel Porter was present at the arrest of Tompkins, and gave substantially the same account as the witness H Moppin.

W C Hale was also present at Tompkins' arrest. He testified that the first thing that was said when Tompkins rode up to Grater's house was by Tompkins who remarked "How do you do Mr Attleberry?" and that seeing several guns in the party he (Tompkins) added "This looks rather hostile." The remainder of this witness' testimony corroborates that of H Moppin.

William Quinn, another witness present at the arrest of Tompkins was called and gave a similar account of the circumstances attending the arrest as that given by the witness H Moppin.

Here General Humason, of counsel for the prosecution stated to the court that he proposed to call but one more witness on the part of the United States and that said witness would probably not be present until Friday morning.

Hon John F Caple of counsel for defendants objected to proceeding with his cross examination until the prosecution had rested their case. He desired to make a motion to the court before proceeding with his ... ... he affected by the testimony of the witness which the prosecution yet proposed to introduce, whereupon the court ordered an adjournment until Friday at 10 o'clock A M.

COUNTY PHYSICIAN

The following correspondence relative to the appointment of Dr J S Giltner as County Physician has taken place. We do not know the particulars of the contracts with Dr Watkins but have no hesitation in saying that if such a contract as he alleges exists—as we doubt not it does—it should be kept by the county and the appointment of another as physician was improper.

COUNTY CLERK'S OFFICE
Portland, August 13, 1872

To Dr R H W[atkins]—... ... of August the Board of County Commissioners made an order removing you from the position of County Physician and appointing Dr Giltner in your stead and authorizing the Clerk to notify you of the change.

Yours, &c, W H HA...
By R L Durham Deputy

[illegible]

... J S WATKINS ... ... August ...

To ... H ... Board of ...
... ... I have ... day received a note from W H Harris, Clerk ... certifying that ... ... August the Board of County Commissioners made an order removing you (me) from the position of County Physician and appointing Dr S Giltner to your stead. If this order refers to the contract which I have with the county of Multnomah to attend the County Hospital as Physician and Surgeon, I respectfully protest against said order as I have a written agreement with said county to perform certain ... ... which agreement does not terminate until the ... day of December 1872. I intend to perform said services faithfully in the future as I have heretofore and shall expect to be paid by ... ... of Multnomah ... ... the terms of said agreement ...
... ... respectfully ...
J M H WATKINS

WRESTLING JO CASE

... ...

In a late number of the *H...* I see a letter signed ... C Davidson ... ... give an unfair and false impression as to the identity of Jo Thomas and James W Davidson. He said ... ... that three ... men ... ... James W Davidson ... ... he left ... ... and ... ... that they knew James W Davidson and that the old man ... ... Davidson. Also ... C Davidson ... ... with the old man Thomas ... ... related to the said three men from Illinois ... ... Joseph Sl... in Portland that he was James W Davidson and that he worked all summer with two of them on M...'s ... ... Again ... G C Davidson attempts to cast reflection upon the characters of these men with ... ... well known to Frank Dekum and ... in Portland to be men of the highest respectability. It now comes with a bad grace from G C Davidson when the case was continued over one term of Court upon the affidavit of W C Johns ... who swore that he was informed by Green C Davidson that his father died when he was a small boy and that he was ... ... color of eyes and general appearance from the man here called Joseph Thomas and also other facts and that he John ... expected to prove all this by said old men from Illinois to wit ... Phillips, Joseph Ogle, Ben Scott and others. Well Joseph Ogle came here saw the old man and swore he was James W Davidson. I also took the evidence of Isaac Phillips and he swore to the same description of the old man that Ogle did. And the other side took the evidence of Ben Scott and he agreed with Ogle and Phillips and said he believed the photograph represented old Davidson, who broke jail and run away from that country for stealing Phillips and McClintock's horses. Wm McClintock and a number of others in Illinois swore substantially to the same things. To rebut the criminal insinuations against Ogle, Smith and Higgins, I call attention to the following letter from the Circuit Judge where they live:

OFFICE OF THE CIRCUIT COURT
ST CLAIR CO, BELLEVILLE ILL
25th October, 1871

To Whom it May Concern:—I take great pleasure in certifying that I have been intimately acquainted for upwards of forty years with Joseph Ogle of St Clair county Ill and with his character and standing amongst his neighbors for honor, integrity, truth and veracity and can give assurance of his high standing and unblemished reputation in all those regards and no man would be more highly trusted than he and I have no hesitation in saying that he is worthy of entire confidence and trust in every respect. I also certify that with Nathaniel Smith and Robert Higgins likewise of said county I am acquainted, but not so intimately as with Ogle but can state that they are gentlemen of the highest character for honor, integrity and veracity amongst their neighbors and acquaintances and deserve the good opinion of all worthy citizens.

I GILLESPIE
Judge of the Circuit Court

I also have letters from the County Judge, District Attorney, Clerk and others to the same effect showing that the characters of these men are above suspicion but they must be put down to set up a vile imposter through whom it is hoped I and others can be robbed of our property.

This G C Davidson says if I want a perfect description of James W Davidson as to his size and complexion I will find it by examining the muster roll of 1812 where he served in Capt William Woods' Company. What a ... as the following letter which I obtained by writing to ... ...

TREASURY DEPARTMENT
THIRD AUDITOR'S OFFICE
December 11 1871

H... J... ...K Kelly United States Senator:—Sir: In reply to your personal inquiry of this day I have the honor to inform you that James W Davidson served as a private in Captain Jacob Short's Company of Illinois Volunteer Rangers from the 27th day of February 1813 until the 1?th day of May, 1815. There were no descriptive papers issued to the volunteers or militia. Such papers were issued to soldiers of the regular army only.

Very respectfully,
ALLAN RUTHERFORD Auditor

This G C Davidson also falsely states that "thirty other witnesses have testified to the death of my father and to the dissimilarity between this man Thomas and James W Davidson." Not one witness has sworn to any such thing. About the time one Manville wanted to marry his mother, for which he could not get a license in Illinois, a rumor was made up that old Davidson was dead but their own witness Hillery Folbert, swore that after the said marriage and false report he, James W Davidson, wrote a letter to said witness' father inquiring about his wife and family and that he saw the letter. Nearly all the witnesses on both sides fix the age of James W Davidson to be about that of the old impostor while the real Thomas if alive would be over a hundred years old as proved by seven witnesses who knew him. G C Davidson says that Gibbs, an interested party, was Prosecuting Attorney and of course did not throw away any chance to help his case by having the matter placed favorably before the Grand Jury.

False again as Gibbs stated in open court, that he was interested and could not prosecute the case before the Grand Jury, and he did not, nor was he present while a single witness was examined. All my witnesses were not examined before the Grand Jury and the defendants unlawfully run in ... ... before the Grand Jury and two of the defendants' attorneys talked with some of the jurors upon the subject, and in the manner aforesaid got the jury to act before the court had appointed any one to conduct the case before the Grand Jury.

As to my trying to resurrect the father of Green C Davidson I never should have thought that said Davidson had a father had it not been for the good people of St Clair county, Illinois, who knew him. I think that it might be well for Green to call on those who condoled with him 46 years ago over the death of his father, to come forward now and join in a general rejoicing of the family over the discovery of their long lost father.

I now offer the following propositions and challenge an acceptance:

First for the purpose of settling the question of identity of the old man now in Oregon, called Jo Thomas, I will agree that the Hon Matthew P Deady, Judge of the United States District Court for the district of Oregon may select one or more disinterested arbitrators or referees who shall take the said old man to St Clair county, Illinois where there are many persons who knew James W Davidson and to Dickson county, Tennessee where there are a number of persons who knew the identical Jo Thomas who married Elizabeth Caruthers and to such other place or places as the party to this litigation may desire to take ... ... for the purpose of identification ... ... I will give a bond ... ... and dollar provided ... ... shall ... ... to appear to ... ... be found ... ... old man ... ... Jo ... ... Elizabeth ... ... Dickson ... ... that ... ... and abandon all claim to the ... of Elizabeth Caruthers. But if it shall be ... ... said arbitrators or referee, and ... ... found by him that the said old man is ... the identical Joseph Thomas who married Elizabeth Caruthers in Dickson county, Tennessee that the parties on the other side shall surrender and abandon all claim to the estate of Lance Caruthers that they claim by virtue of conveyances from said old man, called Joseph Thomas and that the party failing to comply with the above agreement and decision of the arbitrators or referee herein above provided for shall pay to the other party the sum of $30,000 in gold coin of the United States.

Third for the purpose of this investigation I ... some one that I may select and Green C Davidson or some one that the other side may select shall accompany the said arbitrators or referee and said old man and that each party shall pay one half of the expenses of making said investigation.

Here is a fair proposition to take the old man where the truth can be established and I challenge the other side to accept it.

Livingstone's Dispatches

From the London News August 6

We publish in another column a summary of interesting dispatches received by the Foreign Office from Dr Livingstone These papers cover a period of time from November 15th 1870 down to February 20th 1872 They give very full and thrilling accounts of the horrors of the slave trade in Central Africa They supply minute explanations of the privations to which Dr Livingstone was subjected by the dishonesty of agents employed to convey supplies to him from Zanzibar and of course they furnish some accounts of the progress of his work of discovery although perhaps these latter are hardly so full as might have been expected Not the least interesting part of the dispatches are passages which tell of the meeting with Stanley Of course we were already in possession of the facts from Stanley's own description but the accounts given by Dr Livingstone will be read with unabated eagerness Substantially the description of the companionship given by Dr Livingstone corresponds with that of Stanley The meeting and the kindness which it manifested made my whole form says Dr Livingstone, thrill with excitement and gratitude Many expressions and we had almost said many sentences in these dispatches are identical with the phraseology used in parts of the letters to Bennett There is also in the letters to the Foreign Office the same evidence of a cheery spirit brightened up into almost boyish exhileration by the unexpected meeting of one of the explorers of our own race under such strange circumstances and after so long isolation If the letters to the *Herald* contained many evidences of a somewhat exuberant buoyancy which in the minds of some readers cast a doubt upon their authenticity there are abundant evidences of the same elastic temperament in the dispatches received by the Foreign Office

SERIOUS WARNING TO PARENTS —In Detroit a child about four years old had always slept with his parents but for some reason the father made up his mind that he must sleep alone Making some disturbance, and saying he was afraid of bears and wolves, the father became irritated, and shut him in the dark room. The boy screamed at the top of his voice for a few minutes, beat on the door, and entreated to be taken out, but the father was unrelenting as a rock. The wails gradually died away, the lad ceased to shout and after half an hour the door was opened He was not found asleep as expected but he was crouched down in a corner his feet drawn up under him, and it took only a moment to convince the parent that the boy had been [illegible] a lunatic or an idiot He laughed and talked to himself, did not reply to questions, gave no one any notice, and every effort made to bring the boy's reason back failed He would not speak, gave the other children no notice, but wanted to roll around on the floor and play with spools and sticks The boy's reason has been affected by his fright and he may be an idiot for the rest of his days.

THE JEWS GIVING UP PALESTINE —In the *Jewish Times* we find mention of the return of Prof Gratz and Messrs Levy Potzin and Gottschalk, from Palestine Their report is set down by the *Jewish Times* as an additional argument against the folly of encouraging the emigration of the Jews to a country which has no other claim than that of a venerable monument of the past There are now, it appears about sixteen thousand Jews living in Palestine and their average state of culture is much below that of their fellow religionists in Europe They have no visible means of support spend their time in idleness, praying and Talmud reading, and foolish pining and sighing on the ruins of the temple, eking out a miserable existence by the charity of the Jews of Europe America and Australia Curiously enough, the memorial of their visit by Prof Gratz and his companions also suggests the general elimination from all Jewish prayer books of the portions referring to the hopes of Israel in the restitution of the Holy Land to the possession of Israel, and the rebuilding of the temple by Divine Providence

FINANCE AND COMMERCE.

THURSDAY EVENING August 22 1872

Gold in New York today, 113⅛

Portland Legal Tender rates, 87c buying 88 selling

The Norwegian barque *Electra* laden with railroad iron ([illegible] tons) from Newport, Wales arrived this afternoon

The Norwegian barque *Navigator* is also in the river The tug *Merrimac* will bring her up to day The Navigator has 710 tons of railroad iron

Quotations in dry goods are unchanged Trade is moderately fair. Prospects encouraging for the Fall trade Merchants feel confident that the trade during the Fall months will fully compensate for the present [illegible] tone of the market

We note several changes in the prices of groceries etc. Dealers complain somewhat of the scarcity of money but say that trade is very fair with encouraging prospects for the future

No change in quotations of tin ware etc Trade is dull and quiet But few orders are coming in and farmers are waiting to dispose of their wheat before making the usual Fall purchases.

There has been more activity in boots and shoes during the past week than for several weeks previous The demand is becoming more lively and indications are flattering that the market will be very brisk on the opening of the Fall trade. As yet the farmers have not disposed of their crops and consequently money is scarce This scarcity affects the trade of country merchants and orders come in as yet slowly It is confidently anticipated that a marked improvement in trade will take place about the first of next month

No improvements can be noted in drugs paints and oils, and trade is not likely to revive until some time next month

A telegram has been received from San Francisco stating that wheat has fallen there ten cents per cental, and that freight has advanced to £5 from San Francisco to Liverpool

Wheat is still being held at high rates by the farmers—higher than the market can bear at present Some new wheat is coming in—as yet in limited quantities From present indications the wheat market does not present a very favorable appearance

During the past week flour has fallen to $4 25 per bbl. The market is dull, with but very few orders from abroad and little local demand.

Dealers in steel iron and general hardware state during the past few weeks, that business has very materially improved No agricultural implements have been sold but trade in hardware has become quite brisk Orders are coming in, country dealers are sending in money and asking for statements, which indicates an encouraging improvement in trade.

Domestic Produce

WHEAT—Market is entirely at a stand Holders are unwilling to recede so as to meet the views of buyers Shippers are not willing to pay more than $1 25 ℔ cental or $[illegible] ℔ bu for good lots sacked and delivered.

FLOUR—A fair local demand prevails and shipments to Victoria and Puget Sound cause some movement in the market. We still quote standard extras at $5 25 ℔ bbl choice country, $4 75@5; outside and common $4@4 25

OATS—There are moderate receipts and prices are without material change from last reports say $1 75@1 80 ℔ cental

FEED—Quotations are as follows Bran, $20 ℔ ton Chops and Middlings $30@35

BACON—There is more firmness in the market Oregon is very scarce Hams quotable at 16@18c ℔ ℔ Sides, 14c. Shoulders, 10@11c Lard, 14@15c

BUTTER—Prices are somewhat weaker Strictly choice is in better supply and quotable at 37½c; other kinds 15@30c as to quality Cheese, Ankeny's quotable at 15c ℔ ℔

EGGS Supply continues fair and quotations are unchanged at 35c ℔ doz.

POTATOES—The supply is very abundant Quotable at [illegible]c ℔ ℔

WOOL—Market wholly without animation We hear of no sales and prices are only quoted

ONIONS—The supply in market is from California and jobbing at 2c ℔ ℔

HAY—Good timothy is quotable at $20 ℔ ton Loose hay is coming in in considerable quantities

LIVE STOCK—We quote beeves at 3@[illegible]c ℔ ℔ Sheep $[illegible] 50 ℔ head Chickens, $5 50@6 ℔ dozen

HENRY WILSON

of Massachusetts

For Presidential Electors,

W D HA[illegible] [illegible]

J F [illegible]

A [illegible]

Election Tuesday Nov 1872

NATIONAL REPUBLICAN PLATFORM

[illegible]

3 [illegible] National C[illegible] [illegible]

4 The National Government seeks to maintain an honorable peace with all nations protecting its citizens everywhere and sympathizing with all people who strive for greater liberty

5 Any system of the civil service under which the subordinate positions of the Government are considered rewards for mere party zeal is fatally demoralizing and we therefore favor a reform of the system by laws which shall abolish the evils of patronage and make honesty, efficiency and fidelity the essential qualifications for public position without practically creating a lifetenure of office

6 We are opposed to further grants of public lands to corporations and monopolies and demand that the National domain be set apart for free settlement by the people

7 The annual revenue after paying current debts should furnish a moderate balance for the reduction of the principal of the [illegible] [illegible]

8 [illegible]

9 [illegible] Republican party been abandoned and the American idea of the right of an individual to transfer his allegiance having been accepted by European nations it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Governments and we urge continued and careful encouragement and protection to voluntary emigration

10 The franking privilege ought to be abolished and a way proposed for reduction in the rates of postage

11 Among the questions which press for attention is that which concerns the relations of capital and labor and the Republican party recognize the duty of shaping legislation so as to secure a full protection and ample field for capital and for labor which creates capital the largest opportunities and a just share of the mutual profits of these two great servants of civilization

12 We hold that Congress and the President have only fulfilled an important duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13. We denounce the repudiation of public debts in any form or disguise as a national crime We witness with pride the reduction of the principal of that debt and of the rates of interest upon the balance and confidently expect that our excellent national currency will be perfected by a speedy resumption to specie payment

14 The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom their application for admission to further usefulness is received with satisfaction; and the honest demands of any class of citizens for additional rights should be treated with respectful consideration

15 We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion and rejoice in the growth of peace and fraternal feeling throughout the land

16 The Republican party proposes to respect all rights reserved by the people to themselves as carefully as the powers delegated by them to the State and Territorial governments It disapproves of asserting a constitutional laws for the purpose of removing evils by the interference with rights not surrendered by the people to either the State or National Government

17 It is the duty of the General Government to adopt such measures as will tend to encourage American commerce and ship-building

18 We believe that the modest patriotism the earnest purpose, sound judgment practical wisdom incorruptible integrity and illustrious services of U S Grant have commended him to the heart of the American people and with him at our head we start to-day on a new march to victory

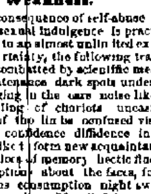
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,



623 KEARNEY STREET NEAR COMMERCIAL San Francisco Established in 1854 for the treatment of Sexual and Seminal Diseases such as Gonorrhea Gleet Stricture Syphilis in all its forms Seminal Weakness Impotency etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary 623 Kearney st corner of Commercial San Francisco where his old patients and those requiring his services may find him

The Doctor has spared neither time nor money in seeking out new remedies and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system Look at their pallid emaciated and disfigured faces and their broken down constitutions disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends attend to those who are suffering with any of these terrible, life-destroying maladies see that they are cared for and cured before it be too late Send them immediately to DR. GIBBON a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate case without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions the consequence of self-abuse This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures viz Sallow countenance dark spots under the eyes, pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances a disposition to shun society loss of memory hectic flushes, pimples and various eruptions about the face, furred tongue fetid breath coughs consumption night sweats, monomania and frequent insanity If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a speedy and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the many [illegible] quacks

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not urge the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity to any part of the country, with full and plain directions By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co. a package of medicine will be forwarded to any part of the Union

All communications strictly confidential

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates dupe the unwary some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy too work at their trades Some are tinsmiths, shoemakers newspaper carriers intelligence office keepers, etc The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles certificates, pretended patients' letters etc Dr Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure

Address DR J F GIBBON, 623 Kearney street corner Commercial, San Francisco Post Office Box 1 957

REMEMBER TO PUT BOX 1 957 ON THE LETTER

Consultations FREE

Correspondents will please inform DR GIBBON that they read his advertisement in the *Daily Oregonian*—
